

Jericho International – Character Growth Feedback

Jericho International promotes, develops and credits Christian character in youth. Our objective is to sow the seeds for a life of service and obedience to God's calling. Since we are more concerned with developing a lifestyle of service than we are with one-time events, we require each participant to have a spiritual leader other than a parent (whom we assume to already be actively involved) provide regular feedback and evaluation discussing the participant's character development. It is our intent that this feedback be shared directly with the participant and his parents, and we request completion of this brief questionnaire only as a demonstration that this was accomplished. Please do not include in writing any comments that you feel are better left to private discussion between you and the participant and his parents.

1. Please state your relationship to the participant.
2. How have you seen the participant's character (e.g., initiative, diligence, faithfulness, servant-heart) manifest itself this semester?
3. How have you seen the participant's character mature this semester?
4. Please provide to the participant any feedback for growth and sanctification you can offer in this context. You need not detail this here. However, please at least write "Completed" to indicate that you have discussed this feedback with the participant and his parents.
